*Chambers Associate* gives law students and associates an unparalleled view into the working lives of lawyers at the nation's leading law firms. At every stage in a lawyer's career we have the insight and analysis to help them make good decisions. We're the only US legal career guide to conduct in-depth telephone interviews with thousands of junior associates on the topics that matter to juniors, like the work they do day to day, the social life (if there is one), pro bono, diversity, how hard they work you, how much money you make, personal development, and much more. We grant our interviewees anonymity so they can speak to us honestly and truthfully. We also talk to firm chairs, managing partners and hiring partners to understand who and how they recruit from law school, and the directions their firms are headed.

Whether searching for candidates or tracking trends in lateral movements, your results are only as good as the underlying data. That's why we've taken the time to develop a comprehensive and accurately categorized database, while also applying the latest technology to enhance our review process. As a result, we provide more targeted market intelligence to our customers.

In addition, we not only show trends based on historical data, but also apply a proprietary predictive analytics model that allows us to look prospectively to identify associates who are most likely to make a lateral move within a 6 to 12 month period.

In the end, finding the right candidate and retaining that individual is one of the most time consuming and costly challenges businesses face. Law firms are no exception.
